AMERICAN MINISTER TO GAUTAMALA .- We had the pieasure yesterday of meeting with Maj. W. E. VENABLE of Winchester, who has been sojourning in our city for some days past. Msj. VENABLE is about to depart for Central America to assume the duties of the office of Minister to Gautamals, an appointment conferred upon him sometime since by President Buchanan. An agreeable acquaintance with him, dating back to 1841, has given us an opportunity to know him well, and we are sure the President could not have selected for the position a worthier man. He is a gentleman of vigorous and comprehensive intellect, a close student. and is distinguished for energy and decision of character. The Major leaves for New York, whence he expects before the close of the month to sail for his destination. We wish him a pleasant voyage, and unmeasured success.

#### Banner Presentation.

The Ladies of South Nashville on Thursday last, the day of the Firemen's celebration, presented Washington Fire Company, No. 5, with a handsome binner. The ceremony of presentation was histily gotten up, but resulted creditably to all concerned. The truth is, that, whenever the ladies undertake any thing, it is bound to be well done. They not only do things well themselves, but inspire the sterner sex to high emprise.

this occasion, and presented the banner with the following remarks:

Sin :- A portion of the ladies of Nashville, fully appr-ciating the philanthropic, the generous and chivalric motives which dictated the organization of Washington Fire Company No. 5, and des ring to give some tangible expression of their gratitude, and the interest they feel in your success, have requested me to deliver to you this beautiful banner. his family, Allow me to say on their behalf that although you may queuch the flunes that would devour the roofs shove them and turn them housed as into the streets, Gubernatorial Canvass-Appointments ing more potent than water to extinguish the gratitude which your noble acbievements for their protection have enkindled in their hearts. I doubt not sir this festimony of the approbation of the ladies will increase if possible the energy and hearty good will with which you will hasten to the relief of those whose substance the merciless flames may threaten to devour.

Your services gentlemen cannot be over estimated. What is more trightful than the sound of the fire bell at midnight? Who is not startled when the cry of fire arouses the sleeping multitude of the city? None! none! That gifted but ecentric genius, EDGAR A. Por has embodied in verse something of the terror and dismay awakened by by the clangor of the fire-bells;

"Loud slarum bells, Brazen bella! What a tale of terror now their turbulency tells. in the startled ear of night, How they scream out their affright; Too much horrified to speak, They can only shrick, shrick

In a clamerous appealing to the mercy of the fire, In a mad exposulation, with the deaf and franticure, Lapping higher, higher, higher; With a desperate desire, And a resolute endeavor,

Now, now, to sit or never. Oh, the bells, bells, bells; What a tale their terror tells Of despair! How they clang and clash and war; What a norror they outpour On the bosom of the palpitating air : et in the ear it fully knows, By the twanging, and the clanging, How the danger ebbs and flows, Yet the ear distinctly tells,

By the sanging and the arangling How the danger sinks and swelis; By the sinking or swelling, In the anger of the bells." It is your duty gentlemen to mitigate the horrors so vividly expressed by the poet, and as long as home and family are dear to women, the ladies of Nashville will not fail to remember you, and when occasion permits, to honor your noble and generner. The portrait upon it, suggested by the name you had already chosen for yourselves is most appropriate. Washington! what holy emotions does the mention of that name not awaken in every American bosom. The unsulfied brightness of his

this assurance of their interest in our organization Next to the pleasure which flows from the consciou-ness of, have achieved a good deed, the smiles of the ladies are the fireman's highest and most valued reward, for his efforts to stay the ravages of the ruthless fire. We thank you and through you those whom you represent for the handsome labors, and efforts for their protection.

Assure them that no effort on our part shall ever be wanting to render us worthy of the continued interest which this gift attests they feel in us. As soon would we think of dishonoring the name we bear, the boliest of all earthly names, as of forfeiting the smiles and approbation of those who have presented us this banner. Another accident at the Rock Island Bridge,

On Sunday morning last the steamer Arazonia, Capt HERDMAN, in coming through the Rock Island bridge struck one of the pirs over her starboard engine, tore off the knuckles to the stern, and al-o carried away the stern post. The damage caused her to leak rapidly, and she was rounded-to at Rock Island. Efforts were made to stop the leak temporarily, but without success, and she filled with water and sunk close to shore.

The Arazonia was a bran new, and very fine boat, on her first trip. She was bound for St. Louis, and had a full cargo, consi-ting of flour, wheat, potatoes, and lead. The Arazonia was probably insured at Pittsburgh, but we have not learned for Dr. A. A. HATCHER represented the ladies on | what amount. The offices in that city do not insure against damages by coming in collision with the Rock I-land Bridge It is thought the boat will be raised. - St Louis Republican, 19th inst.

## EPPERSON SPRINGS

A RE LOCATED IN MACON COUNTY, TENNESSEE, on the waters of Trammel Creek, four miles hast of the turnpixe leading from Gallatin, Tenn., to Scottsvike, Ky, and will be prepared for the reception o visitors and invalids by the 15th day of May. This place has already acquires a reputation wilely circulated for the highly medi-cinal character of its waters, (four different varieties,) and s now being visited by very many, living remotely, who go in search of a healthy a d delightful summer retreat, not only the invalid, but the seekers after pleasure, healthy pa time and sport, there being within a short ride from the Springs a place where deer is frequently seen and streams sbounding in trou' and other kinds of fish, besides various wild animals and f wis, such as foxes, squirrele, rabbits, wild cats, wild turkies, pheasants, etc.

Dr. Dellow, on- of the former proprietors, having purchased the entire interest in the Springs, has as ocuted with him his son William, well known to all who visited the invite the attention of dealers. Springs last summer. Having gone to con iderable expense in re-fitting and entarging their means of accommodation, bey flatter themselves that they will be able to add materally to the comfort of all w o may favor them with a visit, having, during the past winter, put away about seventy

housand pounds of very fine ice. They have had built twelve additional bed-rooms, besides a large one 60 by 20 feet, latticed on each si e to afford air, in which thelovers of pleasure and social enjoyment will find ample room for The medicinal character of the several Springs have been so often published, it is thought useless to do so now, from the fact that Professor Safford, our State Geologist, has been engaged in the examination of some of the waters and designs to complete the whole upon the premises dur-ing the number, when the um of his analysis will be given to the public in connection with this notice or embodied in a report made out by himself. It is considered only necessary to say that chronic affections of any of the more important organs exhibit the efficacy of the waters, particularly those of females. In cases of diseased kidney and bladder, cutaneous di cases, indigestion, dropsy, etc., they have, in many cases, acted live a charm, and in all have

afforded relief. Amp'e testimony as to these facts could be afforded if necessary.

Dr. DeBow will take beasure in giving such advice to invalids and others visiting here, as an experience of 28 or 80 years will enable him to give, and be always present hould his professional services be required. He avails himself of this method to return to his numerus friends and visitors his hearty thanks for their liberal atro: age, and again asks a continuance of the same, with the assurance that neither of us will spare either time or prins to reader all comfortable who may sejourn with us in future. A COMBINED REAPER AND MOWER, PATENTED NOYEMBER 25, 1856.

THIS MACHINE was introduced and used for the first time during the harvest of 1856, and, though new, it has a ready established for itself a reputation which has never been reached by any other Combined Reaper and Mower, and it now occupies a position far in advance of all its competitors.

Fome valuable improvements, suggested by careful observation and experie entiduring the last harvest have been made to this Machine, which will be added to all of these Reapers and Mowers now building for the harvest of 1857.

ADJUSTABILITY. This Machine can be changed from a Reaper to a Mower in five minutes, and when at work can be altered to any desired height in one half minute The following Premiums have been awarded to this Machine during and since the harcest of 1856. First Premium as a Mower, over Manny's Machine, on TRIAL, before the Committee of the Eminence Association; First Premium as a Resper and as a Combined Resper and Mower, over Manny's Machine, on TRIAL, before the Committee of the South-Western Agricultural and Mechanical Association, L. uisville, Ky.; First Premium as a Resper, over the New York Hand-Raking Resper, the New York Self Raking Resper, and Manny's Machine, at the Kentucky State Fair, held at Paris, October, 1506; abo, an extra Premium as a Combined Resperand Mower, over Manny's Machine, at the same Fair.

This Machine is got up at a Gerater expense, is made of better materials (being chiefly of whocost-inox), with a better finish and is more durable than any other Harvester, while at the same time the respective as low as that a kell for the ter finish, and is more durable than any other Harvester, while at the same time the price is as low as that a ked for the most ordinary Combined Machines

Chicago is now the greatest grain market in the worldand the facility and economy with which the products o these lands can be transported to that market, make ther much more profitable, at the prices asked, than those more remote at government rates,-as the additional cost of transportation is a perpetual tax on the latter, which must be borne by the producer, in the reduced price he receives for his grain, &c.

The Title is perfect—and when the final payments are

made, Deeds are executed by the Trustees appointed by the State, and in whom the titls is vested, to the purchasers, which convey to them absolute titles in Fee Simple, free and clear of every incumberance, lien or mortgage. The prices are from \$5 to \$30; interest only 3 per cent.
Twenty per cent will be deducted from the credit price for Cash. Those who purchase on long credit, give notes payable in 2 3, 4, 5 and 6 years after date, and are required to improve one tenth annually for five years, so as to have one half the land under cultivation, at the end of the time. Competent Surveyors will accompany those who wish to examine these Lands, free of charge, and aid them in

The lands remaining unsold are as rich and valuable as those which have been disposed of. Sectional Maps will be sent to any one who will enclose fifty cents in Postage Stamps, and Books or Pamphlets containing numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Sailroad Lands, throughout the State - also the cost of fencing, price of cattle, expense of harvesting, threshing, etc.,—or any other information—will be cheerfully riven on application, either personally or by letter, in English, French, or German, addressed to JOHN WILSON,

PATENT ELASTIC FIRE & WATER-PROO

CEMENT ROOFING THE undersigned are prepared to introduce into use in Tennessee W. E. CHILDS & CO'S PATENT BLAS-IC FIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of Architects, Builders, Ballroad Com-panies, and the public to examine its superiority over other ARCHITECTS AND BUILDERS should not fall to

ARCHITECTS AND BUILDERS should not fall to examine this Roeding, as it is better and cheaper than any thing in use. The material forms a hard and smooth vertace that will resist the action of the atmosphere in every climate. It is impervious to water, clast c and flerible. It contracts and expands with the changes of the a mesphere, and will neither evaporate, crack nor-ros, and, as to the arability, there is no question.

It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good heathing, and shingles, tar and gravel, tio, sine, copper, or iron roofs—it making no difference how steep or flat they may befor seven dollars per one hundred square feet; it being far cheaper than any Roof of the old style, and we are sure it will give better satisfaction. will give better satisfaction.

It will also be found to be the best this g ever invented to

It will also be found to be the best this g ever invented to cover or mend old leaky tin, har and gravel rooff or around chimneys, souttles, dormar windows, and gutters, where the tin is rust d through. This Cement can be put on to last as long as stone, and form a perfect adverton to any object to which it is applied. Tin Roofs can be pa nied over (and warranted not to leak) at two deliars and fifty cents per hundred square feet, which is cheaper and much better than paint. This Roofing will be found to be the best theng for covering large Roofs where they are exposed to fir —such as Sceam Mills, Saw Mills, Factories, Raifrond fir —such as Scenm Mills, Faw Mills, Factories, Raircad Cars, Bridges, Dipots, Station Houses, Steamhost Docks, and, in fact, every kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a join a it, it presents no chapre for fire to communicate, and any iight sub-tance will burn out without igniting.
Insurance Offices at Cincinnati, and other places where Childs & Co.'s Cement has been used, insure suildings with Boofs covered with this Cement, at the same rates as for those covered with Iron, Copper or Tin

TESTIMONIALS AND REPERENCES. OFFICE BUCKETE STATE INSURANCE COMPANT, } CINCINNATI, Dec. 16, 1856 1

To all whom it may concern: This is to certify that I have examined specimens and Roofs of W. E. Childs & Co.'s

Elastic Fire and Water-Proof Cement Roofing," and believe it to be eminently superior to any other kind of Roof-ing in use. I was an eye witness of a severe trial of one of these Roofs from a large volume of flame from an adjoining building, which struck directly upon the roof and cornice for nearly half an hour. It stood the trial beyond all ex-pectation, and saved the building. T. M. HASKELL, President Buckeye State Insurance Co.

CINCINNATI AGENCY HOVAL INSURANCE COMPANY, } I have examined W. E. Childs & Co.'s "Elastic Fire and Water Proof Cement Roofing," and, as far as I can judge, consider it a great invention, and am willing to insure buildings thus protected upon the same terms as I insure those covered by metal.

Agent Royal Ins. Co., London and Liverpool.

From J. B. Bennett, General Agent of Æina Ins. Co. for the Southern and Western States. CISCISSAM, Jan. 7, 1857. Having made considerable inquiry as to the merits of the "Patent Elastic Cement Roofing," introduced into this city by Childs & Co., I find it to be highly recommended in this city by many excellent judges; that it is meeting with very ready and general introduction; that its superiority over the tar composition Roofing is decided and freely admitted; and finally, I expect to adopt it for my next roof, which will the next summer—having intended to use tin, but will try
the virtues of the "Patent Elastic Roofing" as a substitute.
